*Room Square Feet – measured to the center of interior walls except to inside of exterior walls, service walls and stairs.

Layer name explanations:

Poly-Gross - polyline around exterior walls
Poly-Room - polyline to the center of walls in rooms except for walls that are on poly-service and poly-vert layers.
Poly-Service - polyline around service areas to the outside of the wall
Poly-Vert - polyline around stairs, elevators and pipe chases to outside of wall
